SOMIT SHRIVASTAVA Deputy Commissioner KVS RO Bhopal

FROM THE DESK OF PRINCIPAL....

इन लहरों से ठंडी हवा आती तो है नाव जर्जर ही सही लहरों से टकराती तो है एक चिंगारी ढूढ़कर लाओ दोस्तों इस दिये के तेल में बाती तो है।

I think, above lines are appropriate for the aim & purpose of CMP in primary. CMP advocates the progress and development of late bloomers.

I feel immense pleasure in producing this issue of CMP news letter. This shows all round development of a student. Back to basics is implemented for academic growth of a student, where as co-scholastic activities i.e. CCA, Sports, Arts, Computers and celebration of different days help students in developing emotionally, mentally and physically strong.

MESSAGE FROM H.M.

कौन कहता है आसमान में सुराख़ नहीं हो सकता एक पत्थर जरा तबीयात से उछालो तो यारों

Yes....... Back to basics acts as the foundation or mile stone in achieving the target of all round development of a child. This approach makes a child academically sound; besides this all other activities make a child confident, strong and leader in various fields.

Hence, this issue of CMP news letter endorses the true purpose of common minimum program in primary. I am grateful to all the primary teacher and students for accomplishing all the activities sincerely.
